**THE CASHLESS DIGITAL ECONOMY**

# EVOLUTION

THE ROAD TO CASHLESS

Ducatus was born out of a shared passion – the need for change.

To constantly challenge what we know, what we believe in and by changing the way we see, we can shape our financial future.

## THE DUCATUS COIN

IN LATE 2016, AS THE WORLD WITNESSED THE EMERGENCE OF AN ALTERNATIVE DIGITAL ECONOMY, WE AT DUCATUS BEGAN WITH THE BIRTH OF OUR OWN CRYPTOCURRENCY: THE DUCATUS COIN (DUC).

Launched in the same historic city, Rome, where its ancient namesake originated, the first public transaction in the Ducatus Blockchain was performed by our CEO Ronny Tome at the Ducatus Global Summit.

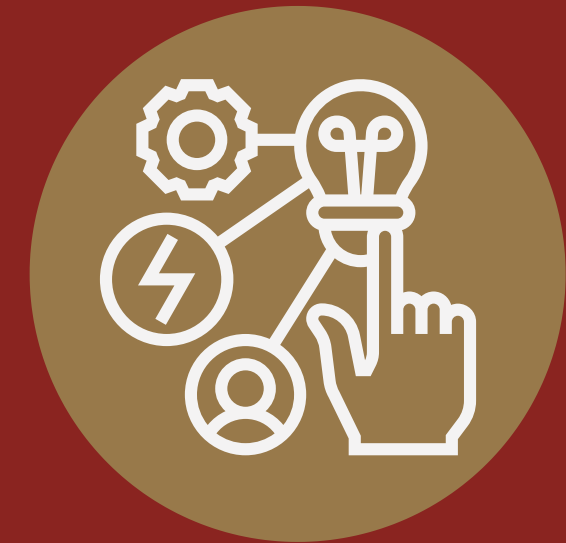

WHAT STARTED AS A WAY TO DISRUPT FINANCIAL PAYMENT  
TRANSACTIONS HAS CRYSTALLISED INTO AN INTEGRATED,  
SUSTAINABLE DIGITAL FRAMEWORK LENDING ITSELF TO OUR  
VISION OF A CASHLESS ECONOMY.

The Ducatus Coin, designed for usability, is the financial glue to our digital cashless landscape, the backbone to growth and sustainability.

Our Mission goes beyond just the creation of digital money: it is to develop a framework that allows a digital economy, to not only flourish and grow, but also provide people with the necessary tools so they can mould their own financial future and create generational wealth.

**OURS IS A MISSION OF TRUE DISRUPTION...  
THE GREATER THE INCLUSION,  
THE GREATER THE SUCCESS.**

## OUR NETWORK COMMUNITY

Through an integrated global distribution of the Ducatus Coin, we are able to impart our knowledge and expertise to our ever growing Ducatus community.

Through our community, Ducatus is present in more than 180 countries around the world - our mission is advanced and supported by this forward-thinking community who shares our vision and appreciates the endless possibilities borne out of a fully cashless economy.

# DISRUPTING THE ESTABLISHMENT

## TO DISRUPT THE ESTABLISHMENT REQUIRES VISION AND MORE IMPORTANTLY A SUSTAINABLE RELEVANCE:

we have to re-think the way we conduct and structure business – break the mould. It is only worth doing if the final tool is efficient, effective, inclusive and better than what we have today.

THUS, AS A COMPANY WE  
NEED TO CONTINUOUSLY  
LEARN AND ADAPT, ALWAYS  
QUESTIONING THE WAY WE  
CONDUCT AND THINK ABOUT  
BUSINESS.

We started with a coin and now  
we are advancing our global vision  
of a cashless society through a  
variety of different products and  
independent business silos.
